

Authoring for Care Network using Care.Protocol on Care.Wallet

Start with defining Journeys

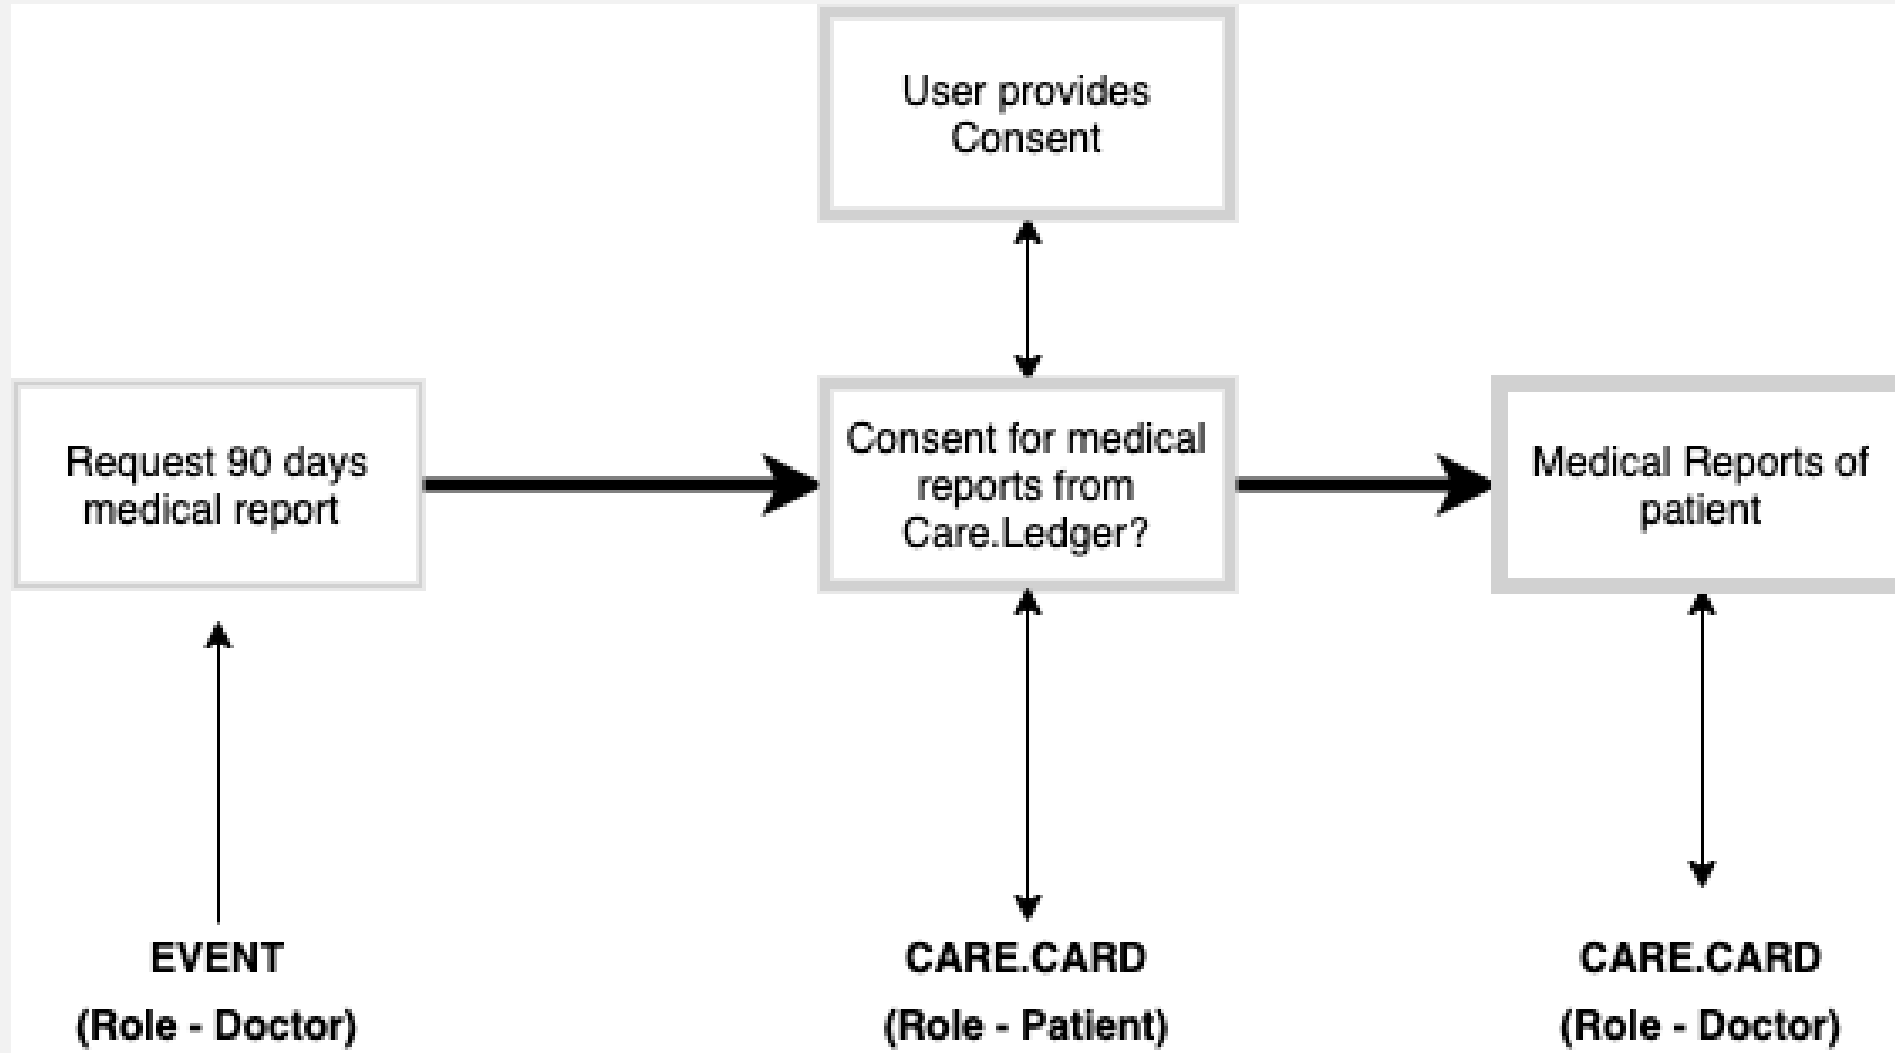

Declaring Journeys

```
"journeys": [  
  {  
    "id": "jn-2001",  
    "name": "내 의료 기록",  
    "description": "Care.Journeys for Medical Record.",  
    "status": "Active",  
    "version": 1,  
    "start_card_ref_id": "cd-3001",  
    "roles": [  
      "rl-1001",  
      "rl-1002"  
    ]  
  },  
  {  
    "id": "js-2002",  
    "name": "오늘 기분이 어떠세요?",  
    "description": "How are you feeling today questions send by the doctors",  
    "status": "Active",  
    "version": 1,  
    "start_card_ref_id": "03201",  
    "roles": [  
      "01001",  
      "01002"  
    ]  
  }  
],
```

Care.Event

동의

의사선생님께서 지난 90일간의
바이탈 및 처방전 케어.내역
(Care.Ledger)을 보고싶어합
니다. 동의하십니까?

☐ YES

☐ NO

← Home

Declaring Care.Cards

三 오늘 기분이 어떠세요?

지난 2 주 동안 일하는 데 관심이나 즐거움이 거의 없었습니다.

 전혀

 며칠

 반나절 이상

 거의 매일

  Home

```
"cards": [  
  {  
    "id": "cd-3001",  
    "name": "내 의료 기록",  
    "description": "각 범주에 있는 항목 수와 함께 의료 기록 범주를 표시합니다.",  
    "status": "Active",  
    "version": 1,  
    "role": "rl-1001",  
    "journey": "jn-2001",  
    "card_definition_ref": "jn-3001.json",  
    "wallet_events": [  
      "ev-4001"  
    ]  
  },  
  {  
    "id": "cd-3002",  
    "name": "VITALS",  
    "description": "혈압, 맥박 및 체온과 같은 활력을 보여줍니다",  
    "status": "Active",  
    "version": 1,  
    "role": "rl-1001",  
    "journey": "jn-2001",  
    "care_tags": {  
      "id": "2928839",  
      "allowed_networks": "global",  
      "data_tags": [  
        "Referred speciality",  
        "Pre-authorization",  
        "Urgency",  
        "Reason"  
      ]  
    },  
    "card_definition_ref": "cd-3002.json",  
    "wallet_events": [  
      "ev-4002",  
      "ev-4011"  
    ]  
  },  
  {  
    "id": "cd-3003",  
    "name": "BLOOD_PRESSURE_STATS",  
    "description": "환자의 혈압 통계.",  
    "status": "Active",  
  }  
]
```

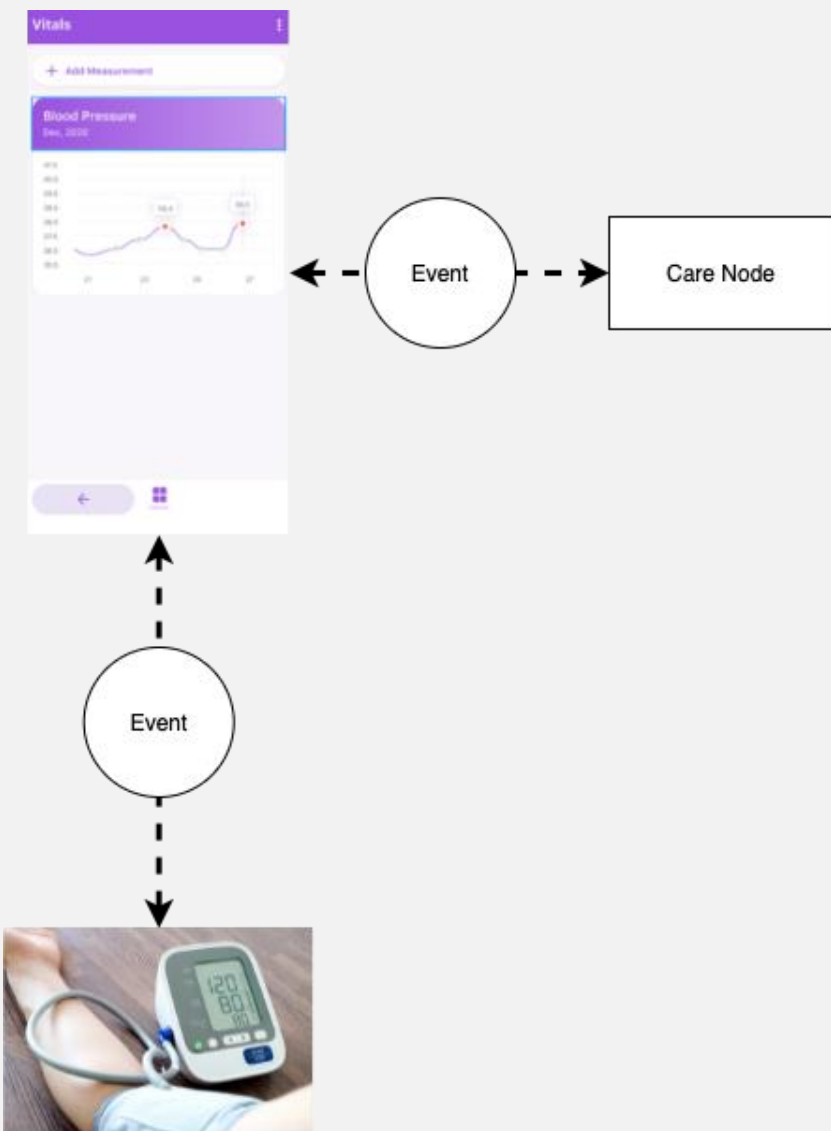

Declare Card UI

```
"tileComponent": [{
  "id": "",
  "isCapturable": true,
  "key": "question1",
  "orientation": "HORIZONTAL",
  "subView": [{
    "id": "${00i1}",
    "position": "START",
    "ratio": "1.5",
    "text_bg": "default_color",
    "text_color": "default_color",
    "text_size": "header1",
    "type": "LABEL",
    "uiAction": ""
  }, {
    "id": "${00i2}",
    "position": "END",
    "ratio": "1.5",
```

```
"cardLayout": {
  "body": [{
    "id": "00t1",
    "tileComponent": [{
      "id": "",
      "isCapturable": true,
      "key": "question1",
      "orientation": "HORIZONTAL",
      "subView": [{
        "id": "${00i1}",
        "position": "START",
        "ratio": "1.5",
        "text_bg": "default_color",
        "text_color": "default_color",
        "text_size": "header1",
        "type": "LABEL",
        "uiAction": ""
      }, {
```

Declaring Events

```
"events": [  
  {  
    "id": "ev-4001",  
    "name": "PT.MEDICAL.RECORDS",  
    "code": "PT.AVAILABLE.DOCTORS",  
    "description": "Event to get the medical records of the patient.",  
    "status": "Active",  
    "version": 1,  
    "type": "wallet_event",  
    "card": "cd-3001",  
    "event_definition_ref": "ev-4001.json",  
    "wallet_event_handlers": [  
      "eh-5001"  
    ],  
    "next_event": "ev-4003"  
  },  
  {  
    "id": "ev-4002",  
    "name": "PT.ADD.MEASUREMENT",  
    "description": "Event to add measurement of vital sign for patient.",  
    "code": "PT.ADD.MEASUREMENT",  
    "status": "Active",  
    "version": 1,  
    "type": "node_event",  
    "event_definition_ref": "ev-4002.json",  
    "distribution_type": "self",  
    "from_role": "ev-1001",  
    "to_role": "ev-1001",  
    "wallet_event_handlers": [  
      "eh-5002"  
    ],  
    "node_event_handlers": [  
      "eh-5003"  
    ],  
  },  
  {  
    "id": "ev-4003",  
    "name": "PT.FETCH.VITALS ",  
    "code": "PT.FETCH.VITALS ",  
    "description": "Event to fetch the vital sign measurement for patient.",  
    "status": "Active",  
    "version": 1,  
  }  
]
```

Declare Care.Circle and Care.Ledger

```
"care_circle": {  
  "id": "cc-6001",  
  "name": "CARECIRCLE",  
  "description": "Care circle created for patient and their doctors.",  
  "role_allow": [  
    "rl-1001",  
    "rl-1002"  
  ],  
  "journeys_allow": [  
    "jn-2001",  
    "jn-2002"  
  ]  
},  
"care_ledger": {  
  "journeys_allow_to_publish": "All",  
  "journey_wise_events": [  
    {  
      "journey": "jn-2001",  
      "events": [  
        "ev-4002",  
        "ev-4007"  
      ]  
    },  
    {  
      "journey": "jn-2002",  
      "events": [  
        "ev-4008",  
        "ev-4012",  
        "ev-4013"  
      ]  
    }  
  ]  
}
```

Declare Care.Vault

```
"vault": {  
  "name": "VAULT",  
  "description": "Vault settings for the network.",  
  "backup_options": {  
    "free": "yes",  
    "upgrade": "Yes"  
  },  
  "upgrade_options": {  
    "tier_1": {  
      "backup_size": "100GB",  
      "upgrade_cost": "100 SOLVE/MONTH"  
    },  
    "tier_2": {  
      "backup_size": "200GB",  
      "upgrade_cost": "200 SOLVE/MONTH"  
    }  
  }  
},  
"geographic_availability": {  
  "countries": [  
    "Korea",  
    "USA"  
  ],  
  "countries_excluded": [  
    "Australia",  
    "UK"  
  ]  
}
```

Care.Tags tokenize interoperability

► Anonymous, asynchronous exchange of data & events

Interoperable
data and event
exchange
mechanism

Registered on
Main Net and
used in any Care
Network

Publishing and
usage fees are
paid in SOLVE
tokens

Card designers
can attach
Care.Tags to any
event & card

Async
interoperability
between cards &
roles

Care.Tags replace
the need for pre-
built system
integrations

```
"care_tags": [  
  {  
    "id": "2928839",  
    "allowed_networks": "global",  
    "data_tags": [  
      "Vitals",  
      "Pre-authorization",  
      "Urgency",  
      "Reason"  
    ]  
  }  
],
```

감사합니다!
